

## Biography of Dr. Edwin Lee

Dr. Edwin Lee is an endocrinologist, author and international speaker. Dr. Lee founded the Institute for Hormonal Balance, Orlando, FL in 2008, is board certified in Internal Medicine, Endocrinology, Diabetes and Metabolism, and has completed special training in Regenerative and Functional Medicine. He is a graduate of the Medical College of Pennsylvania and finished his 2 fellowships (Critical Care and Endocrinology) at the University of Pittsburgh. He is the author of many books and the latest one is *The Fountain of Youth with Peptides*.

Dr. Lee is the lead investigator for an IRB-approved senolytic study investigating the role of Dasatinib and Quercetin on the changes in the immune system, reducing biological aging, and possible reduction of senescence. He recently published the first human trial of using BPC157 injected into the knee joint for knee pain. Currently, he is the assistant professor of Internal Medicine at the University of Central Florida College of Medicine. Dr. Lee is a co-founder of the Clinical Peptide Society and also started a non-for-profit organization [SavePeptides.org](http://SavePeptides.org) to save peptides from the FDA.

His passion is healthy living and he practices what he preaches. He has completed numerous century bicycle rides, triathlons, aqua bike races, 1 mile swims in open water and has summited many mountains. He enjoys participating in ping pong, snowboarding, hiking, snorkeling, cycling, and swimming. He resides in Orlando, Florida, and has a wife and 2 sons that are in college.
