

Luis Martínez, M.D., MPH

Founder, Caribbean Anti-Aging Medicine Association
President, XanoGene Clinic, San Juan, Puerto Rico
Founder, Clinical Peptide Society

Dr. Luis Martínez is a Regenerative Medicine, Anti-aging and Longevity Medicine specialist, clinical researcher and biomedical consultant. He earned his medical degree at The Ponce School of Medicine and completed his residency training at the prestigious University of Pennsylvania. He also completed an Advanced Training Course in Stem Cells in Cancer at the Ponce Health Sciences University/ Magee Research Institute consortium. He is board certified in Clinical Lipidology. Dr. Martínez holds a Master of Public Health with a concentration in Epidemiology and is fellowship trained in Biosecurity. He is the president of Xanogene Clinic, which specialized in Regenerative and Age Management Medicine. He also founded and presides over Regenera Global, a multinational corporation specializing in biotech product development, research, and clinical consulting.

Dr. Martínez is also a Co-Founder of the Clinical Peptide Society, a US-based professional organization aimed at educating physicians and advancing the use of peptide therapeutics. Alongside the Age Management Medicine Group, he and his colleagues have developed the world's first Peptide Certification Program and have so far trained and educated hundreds of physicians. He is also the founder of the Senotherapeutic Network, which focuses on the clinical applications of Senolytics and Senotherapeutics in general. He additionally trains physicians in other aspects of Regenerative and Age Management Medicine through his physician training portal Elite Group MD. Recently, he founded the Caribbean Anti-Aging Medicine Association with the mission to advance the field of Anti-Aging and Regenerative Medicine through medical education, research, and networking.

Dr. Martínez has been practicing bioidentical hormone replacement therapy for over 14 years. He was one of the first physicians to offer subcutaneous pellet therapy in Puerto Rico and is active practicing physician with most years offering this therapy. He was also the first Puerto Rican physician to offer a certified course in BHRT and subcutaneous pellet insertion and has trained hundreds of physicians in this method.
